ABOUT THE "ACHIEVABLE CREW"

The Achievable Crew (TAC) is unlike any other opportunity in education. Across America, parents, educators, schools and foundations continue to seek an effective method to inspire, remind, teach and reinforce positive values in children. The Achievables capture and retain the interest of children of all ages by leveraging a multi-media approach to education. These new super-heroes get into the heart and mind of every child while contributing to their learning and enjoyment. The Achievables is an ideal way to educate and empower our children in a fun and entertaining format that they will retain.

The Mission of the Achievables is to make children BELIEVE and ACHIEVE... in all they do... by establishing an exciting, practical and powerful learning format that captivates, entertains and holds the attention of even the youngest learners.

The Achievables are focused on empowering children to lead healthy life styles through character building. This effective and empowering way of learning important values and character traits will create an awareness of consciousness that will shift their thought patterns to make better life choices, beginning at an early stage. The Achievables maintain a constant focus and commitment to character building, positive values and understanding the importance of sharing subjects such as RESPECT, RESPONSIBILITY, HONESTY, DRUG-FREE, and dealing with PEER-PRESSURE & BULLYING in today's challenging society. The crucial values that The Achievables represent and the relevant topics that they collectively address are all part of a nation-wide movement towards a curriculum for character development and education that is now starting to penetrate in schools all over.

Through the use of our fun rhyming format, the interaction of animation mixed with real back-grounds and beautifully illustrated materials such as interactive books, a winning character education program for teachers and students, posters, awards, computer software, website games, all the way to TV, there is no doubt that The Achievables come to life to penetrate every kid with their superhero-like positive powers and make learning, childhood development, and character growth a more fun, inspiring and empowering way to remember these important values.

Join us now to create this highly desired new movement in education for our kids as we strive to make the world a better place...one kid at a time!
