

CHARTER & NON-PUBLIC SCHOOL DIVISION

Technology in schools needs to “JUST WORK”

When it doesn't “JUST WORK” and there is no clear process to address issues, the teaching and learning process can be negatively impacted.

The ETMC's charter and nonpublic school division provides these schools access to enterprise-level technology and support customized to each school's size and needs.

Our services include:

- Strategic Planning & Oversight
- Cloud-based Managed Services (powered by Integrity)
- Procurement and Deployments
- IT Professional Services & Support
- Training & Certifications

Our goal is to ensure that your technology “JUST WORKS” and that you can focus on teaching the children in your care!
