

Introducing the New Samsung Galaxy Nook... The Future of the Digital Classroom!!

The ultimate goal for a complete digital experience in the classroom is a 1:1 solution.

So, what do you need in a device to make digital education a reality for you?

COST

We begin here. We have to be realistic. If it costs too much, we cannot buy it and maintain it. Simple.

QUALITY

Quality cannot be sacrificed due to a lower cost. These devices will be in the hands of children. Enough said.

FUNCTIONALITY

The device cannot be a single dimension, single source device. It must be for school and life.

CONTENT

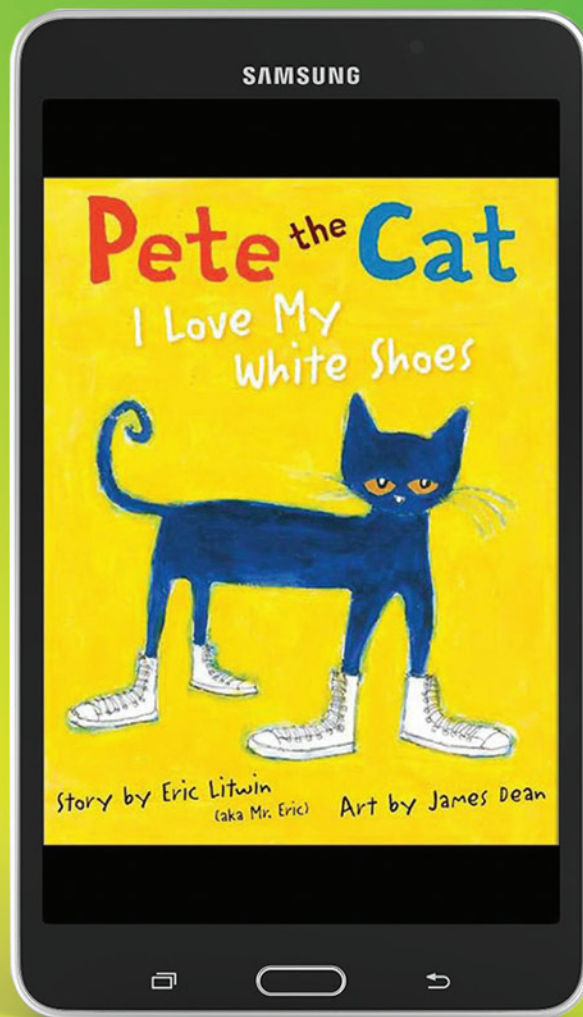

A classroom tablet without content is like cable tv without the cable.

THE SAMSUNG GALAXY TAB 4 NOOK

Samsung cost and quality with Nook functionality and content!

Samsung is the gold standard in Android tablets. The new Galaxy Tab 4 Nook works seamlessly with Google Education and offers the best integration with the Airwatch Mobile Device Management Solution and Teacher Tools — better than any other solution.

Barnes & Noble is content defined! The new Nook interface is optimized to ensure the best experience teachers and students have ever had on a device.
